Joule is a single sophisticated application that connects all your permitted venues, simplifying best price discovery and providing enhanced analysis and execution.

» Comprehensive Global Network

- » Trade power, gas, coal, emissions, iron ore, voluntary carbon, freight and oil
- » 20+ power markets incl. German, UK, Nordic
- » 15+ gas markets including TTF, NBP, CME (Henry Hub)
- » Global markets, including EACs, Japan VCM, North American markets and more

» Enhanced Market Views

- » Get a complete view of the worldwide global gas market and European Emissions marketplaces
- » A full range of contracts - from spot to years ahead
- » Prices not available elsewhere - including implied and spreads

Advanced Trading And Analytics Tools

» Don't Miss Opportunities

- » View the market in one place and make informed trading decisions
- » Enhanced trading tools such as Automated Trading, allowing you to run additional execution strategies
- » Historical and technical analysis capability built in for a transparent view of the market

» Leading-Edge Algorithmic Design And Execution Capabilities

Joule is integrated with autoTRADER, the complete solution for manual and automated trading.

FX Conversions In Joule

Convert gas products across different currencies and units, allowing for real-time comparison of key benchmarks.

Key Features

- » **Prompt Conversions:** Swap global units and currencies like USD, EUR, and GBP
- » **Trusted Data:** High-precision calculations using Morningstar mid-price forward curves
- » **The FX Lens:** Create converted stacks via the ellipsis menu for side-by-side comparison
- » **Full Transparency:** Simply right-click any price to see exactly how the conversion was calculated
